Technology's impact on the health care industry and its stakeholders is growing both domestically and globally. At this critical moment, the Center for Health Management and Policy at the University of Miami Business School will host its eighth annual health care industry impact conference, "The Business of Health Care: Technology & People: U.S. & Beyond." Please join us on **FRIDAY, MARCH 29, 2019**.

This conference promises to offer an unparalleled opportunity for the exchange of ideas relating to anticipated change in health care technology and policy, and its impact on the health care and business community.
